

Delegation: Heather Ranson, The Greig Greenway Society

Summary: The Greig Greenway Society is a group of neighbours and residents of the RDN Area G and Parksville who have been working to save a property at 1865 Greig Road from development. In our investigation of this property we have found issues with preservation of Coastal Douglas-firs, degradation of the banks of the Englishman River, and lack of responsibility for water in the Englishman River for salmon health. The amendments proposed will offer policy and targets that protect against problems we have found with the RDN Regional Growth Strategy.

Action Requested: Support the Regional Growth Strategy Amendments
