

Meeting: Board – July 22, 2025

Delegation: Chris Burger, Corcan Meadowood Residents Association

Subject: Status of our Eastern Emergency Evacuation Route

Summary: Our current emergency plan designates Corcan RD transiting through the Regional park as an our Eastern evacuation route. Currently the condition of this route is such that it would not be useable. We would like the RDN to work with Provincial and industry partners to ensure there is a plan in place to maintain this route.

Action Requested: Will request that the board find a solution that will ensure the road is maintained. At the time of writing this the road does not appear to be usable.

Please note: *This delegation plans to attend virtually.*
They will not have a presentation.
